

I NEED HELP CHOOSING COURSES!

Step

1

Frist check your [degree progress](#) online!!

You will be able to see what you have completed and what you still need for your degree

Second, know what courses you require in general!

Do you want to know what you need for your degree? Check your progress above and you can also compare that with the academic calendar!

Step

2

Do you want to get into a professional school? Research what they require and check that against your degree requirements!

Step

3

Third, check out the videos on the [Biology Advising website](#) about how to choose courses according to your year!

Finally, check out the rest of the resources on the [Biology advising website](#)! Your question will be answered there!
